A person is standing in a hallway, holding a white sign with the handwritten text "A123". They are positioned in front of a display of four posters for the "2014 Science and Technology Safety Lamp Charity Activity Plan". The posters are arranged in a row and feature a pink and white color scheme with a heart logo. The first poster on the left is titled "活動成果" (Activity Results) and lists achievements such as receiving 186 safety lamps and supporting 117 schools. The second poster is titled "活動內容" (Activity Content) and lists activities like providing financial aid, establishing a dedicated fund, and offering various services. The third poster is titled "活動目標" (Activity Objectives) and outlines goals such as narrowing the gap in science education, promoting social responsibility, and improving the living conditions of disadvantaged children. The fourth poster on the right is titled "2014 科工平安燈點燈傳愛公益扶弱活動計畫" (2014 Science and Technology Safety Lamp Charity Activity Plan) and includes a QR code and contact information. Above the posters, a large sign indicates the location of various rooms: "Breastfeeding Room", "First Aid", "Closroom", "Main Lobby", and "Children's Science Center". The hallway has a grid ceiling and a sign with an arrow pointing right.
